PROFESSIONAL SUMMARY

Data Science student specializing in SQL, Python, Power BI and applied GenAI, with hands-on experience in dashboarding, exploratory data analysis (EDA) and LLM-based tools (RAG). 5x hackathon and 1x datathon winner, including national- and international-level first places.

EDUCATION

B.Sc. Data Science, Kristu Jayanti (Deemed to be University), Bengaluru | **CGPA: 8.2** | Expected July 2027

TECHNICAL SKILLS

Languages & Databases: Python, SQL (JOINS, CTEs, Window Functions, Aggregations), MySQL, MongoDB

Data Analysis: Pandas, NumPy, EDA, Data Wrangling, Statistical Analysis, Feature Engineering

BI & Visualization: Power BI, Qlik, Google Analytics, Celonis, Matplotlib, Seaborn, Excel

AI & Tools: LLMs, RAG, LangChain, FAISS, Sentence Transformers, Groq, Streamlit, Git, Jupyter

EXPERIENCE

Data Analytics Intern, Sepiolite Technology Pvt Ltd (Remote) | Jul 2025 - Aug 2025

- Cleaned and standardized 4 multi-source datasets (10,000+ records each) with 98%+ accuracy.
- Built 3 KPI dashboards that reduced report preparation time by 35%.
- Automated data validation in Python, cutting QA processing from 2 hours to 20 minutes per dataset.

EDA Instructor, Skill Studio, Kristu Jayanti | Feb 2026 - Present

- Teach Exploratory Data Analysis (Python, Pandas, data visualization) to junior and senior student cohorts, earning strong student feedback and project outcomes.

Sales Marketing Advisor, Sparta Telecom, New Delhi | Sep 2023 - Mar 2024

- Managed 800+ lead records and identified conversion bottlenecks, improving team close rate by 12% over 6 months.

PROJECTS

EduHats: Industry-Aligned Syllabus Matcher | github.com/dhruvsoin/EduHats-Streamlit

Python, Streamlit, Groq (Llama-3.1-70B), JobSpy

- Scraped 500+ live job postings and used LLM parsing to extract 80+ in-demand skills across 5 technical domains.
- Performed frequency-weighted skill-gap analysis and generated PDF reports with prioritized recommendations; adopted for curriculum review at Kristu Jayanti.

KJU-BOT: University Q&A Chatbot (RAG) | github.com/dhruvsoin/KJU-Bot

Python, FAISS, Sentence Transformers, Groq (Llama-3.3-70B), Streamlit

- Built a retrieval-augmented generation (RAG) chatbot that answers questions on university admissions, policies and the CS undergraduate program, using data scraped from the official university website and structured as JSON.
- Embedded content with all-MiniLM-L6-v2 and indexed it in FAISS for semantic search, passing retrieved context to Llama-3.3-70B to generate answers in a Streamlit chat interface.

Sales Performance Dashboard | github.com/dhruvsoin/sales_performance_dashboard

SQL, Python, Pandas, Power BI

- Analyzed 10,000+ rows of retail data using SQL CTEs and window functions to compute MoM revenue growth, regional performance and top-10 product rankings.
- Built a Power BI dashboard with 6 KPI cards and region/category drill-downs, identifying 3 subcategories responsible for 18% of total losses.
- Automated monthly data cleaning in Pandas, reducing pre-processing time by about 40%.

ACHIEVEMENTS & HACKATHONS

- 1st Place**, Sudo//Build International Hackathon, Christ University (24-hr; 200 teams, 6 countries)
- 1st Prize (National)**, UiPath Agentic AI Hackathon; **1st Prize**, Qlik Datathon
- 1st Prize**, TechBiz National Hackathon, Presidency University (24-hr)
- Top 4 of 143 teams**, HackSpora'25 (24-hr); **Top 12 (National)**, Aarohan Viksit Bharat Hackathon, IIT Bombay
- 2x 1st Prize and 2 titles**, SynchroTech'25 (Data Storytelling, Data Maverick, Spider Trail, ITM)
- 15+ additional wins** across inter-college technical and non-technical events

LEADERSHIP

- Student Secretary**, Dept. of Computational Studies: Serve as the liaison between students and faculty and coordinate department-wide technical events, workshops and hackathons.
- ID Card Program Lead**, Kristu Jayanti: Led data collection, processing and ID card generation for the entire first-year cohort for two consecutive years.

CERTIFICATIONS

Google Analytics Certification, Google (Nov 2024) | Qlik Data Analytics Certification, Qlik (Jun 2025) | MongoDB Database Admin Path, MongoDB (Jul 2025) | Digital Engineering, Gold Category, NASSCOM FutureSkills Prime (Aug 2025)
